The Oracle Academy Introduction to Computer Science program (Introduction) is delivered in collaboration with the Ministry of Education, Research and Youth, supporting over 77 000 Romanian students and over 1 500 teachers from secondary schools.

•   The Oracle Academy helps students develop the technology and business skills required for 21st century careers.
•   Students develop technical, analytical, and business skills that support the pursuit of professional careers and advanced study.
•   Recognize young talents through the students by their participations at the Oracle Global Data Modeling Competition (for the 4th consecutive year, three Romanian students' teams from high schools won the Oracle Global Data Modeling Competition, they competed against over 100 teams in the World.
•   Success in secondary schools has generated a high demand from students to pursue on advanced courses when then join faculty.
•   The Oracle Academy provides Universities with programs dedicated to higher education like the Advanced Computer Science and the Enterprise Business Applications offerings.

Help your students to develop the business and technology skills required for 21st century careers by:

A.   Providing your faculty with Oracle database and middleware software, development tools and curriculum for teaching use on the Advanced Computer Science program (read more in the guide) in order to give the students:
•   the opportunity to gain hands-on experience with Oracle's world-class database technologies;
•   a competitive advantage as they prepare to enter the workforce

B.   Providing your faculty and business schools with Oracle applications software, hosted technology and curriculum for teaching use on the Enterprise Business Application program (read more in the guide) which give the students:
•   the opportunity to gain hands-on experience with applications that are used in industries such as finance, retail, telecommunications, healthcare and manufacturing.

Become a Member!

Take the opportunity to enroll in one of our offerings before the end of 2009 and get membership for free.
