RoEduNet IEEE International Conference 2010

Sibiu, Romania
June 24-26, 2010
<http://roedu2010.ulbsibiu.ro>

Nowadays, modern education and research activities are strongly dependent on a high-speed communication infrastructure and computer networks based on the newest technology. Design, implementation, management of such networks, together with development of new application fields are not possible without good knowledge of networking state-of-the-art.

The ninth edition of RoEduNet's (Romanian Educational Network) annual Conference, organized in Sibiu by ARNIEC under the patronage of the Romanian Ministry of Education, Research and Innovation and Lucian Blaga University of Sibiu, offers special opportunities for information exchange in computer networking: technical and strategic aspects, communication issues, and of course their applications in education and research. As in previously organized conferences, this new event offers a proper framework for joining prominent personalities of digital communication and computer technology, and allows significant sharing of ideas and practical experience.

TOPICS and FOCUS

Contributions in networking and computer technology will be accepted without being strictly limited by the above topics.

- Network Architecture and Protocols
- Network Security and Privacy
- Wireless, Mobile, Ad-hoc, and Sensor Networks
- Network Management
- Grid Computing and Pervasive Computing
- Distributed Applications
- Web Engineering and Web Applications
- Emerging Network Technologies and Platforms
- Operating System and Host Support for Networking
- Computer Vision and Robotics
- Data Mining and Semantic Web
- Multimedia and Applications

IMPORTANT DATES

Paper Submissions	24.03.2010
Notification of Acceptance	28.04.2010
Full Paper Submissions	26.05.2010
Conference	24-26.06.2010

PAPER SUBMISSION

Papers in English with title and name(s) of the author(s) must be submitted until March 24th, 2010. There is a special format for papers (<http://roedu2010.ulbsibiu.ro>). The full paper must not exceed 6 pages in length. Papers should be written and presented in English. Each participant can be represented two times at most either as author or as co-author of an original paper.

Acceptance of papers will be given by April 28th, 2010. Papers formatted as described on Conference website should be submitted no later than May 26th, 2010. The papers will be published in the Conference Proceedings and CDROM and will be **indexed by IEEEExplore Digital Library and ISI Web of Science**.

VENUE

The ninth edition of the RoEduNet Conference will be hosted in Sibiu, about 300 km N-W from the Romanian capital Bucharest. The Citadel of Sibiu was for centuries one of the largest and best fortified in Europe. Sibiu is beautiful; indeed a delight for the eyes. Eerie eaves shaped like eyes peer down from the buildings that line the narrow, medieval streets. At the center of it all stands the proud fortress-church, built by the original German settlers in Gothic sturdiness. History surrounds Sibiu like a defensive wall. The outlines of Sibiu's many churches have dominated her sky line since early times. Sibiu is dotted with many areas of parkland, intimate gardens, attractive tree-lined boulevards and contains the largest concentration of tourist attractions in Romania. Sibiu was the European Capital of Culture in 2007.
